

SKÖVDE

NOTIFICATION OF PERMANENT RESIDENCE ABROAD

According to Chapter 7, Section 2 of the Swedish Education Act (2010:800), guardians of children residing in Sweden are required to ensure that their child attends school. Compulsory schooling in Sweden ceases when a child takes up permanent residence abroad. To determine whether compulsory schooling can be waived, guardians must contact the municipality. This applies when the family or the child will be living abroad on a permanent basis. The notification must be submitted to the Education Administration in Skövde Municipality before leaving Sweden.

To attach to the application

In order for the Education Administration to be able to check whether the child is permanently staying abroad, the information in the notification needs to be supported by a certificate or similar documents, for example:

- Certificate of school enrollment abroad as well as certificate of the student's participation in teaching
- Rental and housing contracts
- Travel documents
- Employment contract abroad
- Other relevant documentation

For your information

In cases where the Education Administration assesses that the child is permanently residing abroad and is therefore not covered by compulsory schooling, the home municipality always has responsibility for the child as long as the child is registered in the country. Therefore, at least once per term, the municipality needs to receive information from the guardian that can prove the continued stay abroad.

If the residency abroad cannot be verified, the municipality may revoke previous decisions regarding an extended stay abroad, in which case the child again becomes subject to compulsory schooling.

Information about the child's stay abroad will be sent to the Swedish Tax Agency and the Social Insurance Agency.

Decisions on exemption from compulsory schooling due to permanent residence abroad are made by the Head of the Compulsory School Division under delegated authority from the Child and Education Committee.
